

Telemetry SIM Card Provisioning Instructions

Wireless Data Customer Support (for additional support)

P: 1300 131 816

E: Wirelessdata@team.telstra.com

- For Migrating CDMA customers or New customers utilising an IP-Based Solution (Packet-Switching) please refer to the below Telemetry Plans recently launched by Telstra:

Data Plans	Network	Contract/Casual
\$5/1MB	GPRS/3G/Next G	Casual (monthly)
\$8/3MB	GPRS/3G/Next G	Casual (monthly)
\$29/70MB	GPRS/3G/Next G	Casual (monthly)
\$59/200MB	GPRS/3G/Next G	Casual (monthly)
\$89/500MB	GPRS/3G/Next G	Casual (monthly)
\$109/1000MB	GPRS/3G/Next G	Casual (monthly)
\$179/2000MB	GPRS/3G/Next G	Casual (monthly)

Note: A \$16/10MB Telstra Mobile Broadband plan is also available. Telemetry customers requiring between 3MB and 70MB per month should consider this option.

- For Migrating CDMA customers utilising a Circuit Switched Solution (i.e. Modem attached to vending machine dials the number of the mainframe modem, sends the data and then ends the call) please follow the below steps:
 - Find out what type of Voice Plans your current CDMA ESN services are provisioned on.
 - Outline your requirements and usage patterns to your Telstra Representative / Dealer.
 - Find out what equivalent Next G™ network plans are available. You should choose a Voice Plan that has suitable call rates that meet your usage needs (i.e. If your application will be calling out 20 times a day for 2 or 3 minute-long calls then you should choose a plan with rates as low as possible due to the high volume of usage).
 - For a Data Terminating Number to be added and provisioned to a new or existing voice number to enable your device to **receive** Circuit Switched Data calls, you should let your Telstra Representative / Dealer know and also ensure that Code 2620 is activated on your account. *(Note: There is a \$5.50 flat monthly fee for each Data Terminating Number)*
- If you do not have an official Telstra Account Representative or an established relationship with a Telstra Dealer, below are the details of several Data Specialised Telstra Dealers that will be able to service your Telemetry Access needs.
